On-Site Safety

⚠ Dispatch Emergency Alerts

Need to be alerted immediately when 911 is dialed on-site, mobile users are in distress, or broadcast other alerts easily and quickly to your group or staff?

⬇ Guide User Responses

Need to guide staff in recording the critical details, following procedures, obtaining answers or recording the progress of incidents for tracking or future follow up?

📷 Streamline Data Collection

Need to include additional media, notes, timestamps and location info with these alerts & reports?

➡ Simplify Notification Procedures

Need to trigger remote devices based on alerts or integrate with onsite alerting hardware and telephone equipment?

Genesis's On-site Safety Solution makes handling lockdowns, evacuations and emergency situations effortless while dramatically lowering both on-site and EMS response times. Keeping staff, students, or individuals safe and informed during any emergency situations is imperative. Implementing a dedicated, on-site emergency notification solution is the most cost-effective way to enhance safety and security for all those within or around your organization.

✓ Notify staff of 911 calls or emergencies requiring their immediate attention
✓ Distribute simultaneous visual, audible & text-based alerts
✓ Centrally monitor and dispatch alerts for multiple buildings and locations
✓ Connect and integrate with existing phone systems & paging equipment
✓ Initiate panic alarms, evacuations or lockdowns with precise locations
✓ Store incident details indefinitely for future review, follow-up & analysis
